HELP US MAKE SOME NOISE AT ISE 2015 AND WIN A PAIR OF STEALTH STINGRAY SPEAKERS

Integrated Systems Europe 2015 held at the RAI in Amsterdam (10-12 February 2015) is the top European show for the AV integrator.

This year it will be a great showcase for Stealth's latest products that combine high quality audio performance and reliability, with state of the art invisible technology. Even better, we'll have our renowned Stealth StingRay speakers – the best, most resilient outdoor speakers that money can buy - stationed outside the RAI, providing a soundtrack for all visitors coming to the show.

To celebrate, we'd like you to help us create that soundtrack and win a pair of these award winning outdoor speakers for yourself.

Tweet [@StealthAcoustic](https://twitter.com/StealthAcoustic) with your choice of song, using the hash tag #StealthSong, with your song suggestion and we'll put that song forward for our ISE 2015 playlist. If it makes the playlist, then you're automatically entered into the competition. The winner will be announced on our ISE show booth located in Hall 5 R-112 Thursday Morning 12, February at 10:00am. The playlist will be compiled before the start of ISE and will be playing throughout the event to help soundtrack the 3 day event.
